EXPERIENCE

Intern Tester, T3 Resources, Austin, TX (07/19 – Present)

- Experience in designing, developing, and enhancing automated test scripts for Selenium using Python.
- Excellent working knowledge of designing & implementation of all QA test strategy plans manually and Automated Test Solutions for Client/Server and Web applications with Selenium WebDriver.
- Developed Test Automation frameworks using Python PYTEST Unit Testing framework.
- Implemented Page object Design Patterns, PYTEST Fixtures, Log4j reporting for developing Framework with Industry Standard Best Practices.
- Created PYTEST Test Suites and integrated with Jenkins Server to execute automation scripts on a regular basis by scheduling Jenkins jobs in different test environments with different test configurations.
- Performed Functional Testing, Data Driven Testing (Using Pyxl Libraries), and Cross Browser Compatibility Testing on different browsers like IE, Firefox & Chrome.

Study Interviewer & Deputy Registrar, Express Employment, Aurora, CO (10/19 – 03/20)

- I worked as a Deputy Registrar where I understand the client's needs and process their order accurately and on time. The software we use to process the birth certificates is COVIS. I found a few issues in the software and I notified my manager about the issues I found.

Temporary Compliance, Aerotek, Aurora, CO (06/19 – 07/19)

- Entered and interpreted the custody documents data. I maintained all the custody documents by sorting through emails. In order to find the necessary documents I read the emails to get the needed information and logged them in an excel spreadsheet.

Public Safety Communications Trainee (PSCT), APD, Aurora, CO (02/18 – 06/18)

- I kept track of a wide variety of public safety responders, resources, personnel, incidents and trends. Learned the basic services and activities of a municipal PSCT & dispatch program. Performed inquiries & criminal history checks for law enforcement personnel through the National Crime Information Center (NCIC). Collected statistical data & compiled data for reports/ updates and assures the accuracy of the database. Received screens, & took appropriate action on all emergency service calls including 911 calls from the public requesting law enforcement, fire, and EMS through our system computer-aided dispatch (CAD). I Found an issue for slow and unresponsive system which prevented the help to arrive on time and lives were put in danger and I was appreciated for this.

EDUCATION

Bachelor's of Arts from the University of Colorado, Denver
