EXPERIENCE

Intern Tester, T3 Resources, Austin, TX (10/19 – Present)

- Experience in designing, developing and enhancing automated test scripts for Selenium using Python.
- Excellent working knowledge of designing & implementation of all QA test strategy plans manually and automated Test solutions for Client/server and Web applications with Selenium WebDriver.
- Developed test Automation frameworks using Python PYTEST unit Testing framework.
- Implemented Page object Design Patterns, Pytest fixtures, Log4j reporting for developing Framework with Industry standard Best Practices.
- Created PyTest test suites and integrated with Jenkins Server to execute automation scripts on a regular basis by scheduling Jenkins jobs in different test environments with different test configurations.
- Performed Functional Testing, Data Driven Testing (Using Pyxl Libraries), and Cross Browser Compatibility Testing on different browsers like IE, Firefox & Chrome..
- Earned a good reputation for good attendance and hard work.

Study Interviewer & Deputy Registrar, Express Employment, Aurora, CO (10/19 – Present)

I work as a Deputy Registrar where I understand the client's needs and process their order accurately and in a timely manner. The software we use to process the birth certificates is COVIS. I found few issues in the software and I notified my manager about the issues I found.

Temporary Compliance, Aerotek, Aurora, CO (06/19 – 07/19)

Entered and interpreted the custody documents data. I maintained all the custody documents by sorting through emails. In order to find the necessary documents I read the emails to get the needed information and logged them in an excel spreadsheet.

EDUCATION

Bachelor's of Arts from University of Colorado, Denver
